

# Serpell Primary School COVID-19 Term 4 Policy

## Purpose

The purpose of this policy is to outline to parents, carers, and students how our school will be managing risk and other operational matters relating to Coronavirus (COVID-19) during Term 4, 2020.

Serpell Primary School is committed to providing a safe learning and working environment for our students and staff. We ask for all members of the school community to follow this policy to enable us to provide the safest possible environment during this time. We all have a role to play in stopping the spread of COVID-19 in Victoria.

## Background

Serpell Primary School is following the advice from the Department of Education and Training which can be found on the Department's website at: [Coronavirus \(COVID-19\)](#).

## Scope

This policy applies to everyone the Serpell Primary School engaging in on-site learning or visiting school grounds. This includes all members of staff (principals, teachers, and education support staff), all parents/carers who interact with the school and all students. It also includes visitors to the school. Information specific to staff only and not directly relevant to students and their families is not included in this policy.

## Details

### *On-site learning*

We are pleased to advise that all students will return to full-time on-site learning commencing the week beginning Monday 12 October. Information has been provided to the community through the School Newsletter.

### *Term 4 priorities*

We will continue to have in place strong measures to protect the health and safety of students, staff, families, and the community. In addition to the health and safety measures outlined in this policy, we will be focused on three key priorities in Term 4:

#### *Mental health and wellbeing*

Our highest priority will be the wellbeing, particularly the mental health, of every student and member of staff. This means effectively mobilising all available resources to support our most vulnerable students and enabling staff to access the relevant support services.

#### *Learning and excellence*

Our priority will be supporting all students to continue to extend their learning, particularly in literacy and numeracy.

#### *Transitions*

We will make every effort to ensure successful transitions for children moving from kindergarten into Prep as well as our Year 6 cohort moving into Year 7.

### *Health and safety at school*

Our school follows the Department and Victorian Chief Health Officer's advice and requirements in relation to health and safety. The health and safety measures relating to students are outlined below. These health and safety measures are regularly reviewed in line with the changing context of COVID-19 in Victoria. As a result, as Term 4 proceeds, some measures may no longer be required and/or new measures may be introduced.

#### *Unwell students (including students who have been tested)*

- Unwell students **must** stay home.

- Where students have been tested for coronavirus (COVID-19) they are required to isolate at home and must not attend school until they are both symptom free and have received their results (provided the result is negative).

#### *Managing unwell students at school*

- Students experiencing compatible symptoms with coronavirus (COVID-19), such as fever, cough, chills or sweats, shortness of breath, sore throat, runny nose, loss of smell or taste, will be isolated in an appropriate space with suitable supervision and collected by a parent/carer as soon as possible. Urgent medical attention will be sought where needed. Unwell students will not be permitted to travel home unsupervised.
- Health care plans, where relevant, should be updated to provide additional advice on monitoring and identification of the unwell child in the context of coronavirus (COVID-19).
- If a staff member is unsure whether a student is unwell in the first instance, we will contact the parent/carer to discuss any concerns about the health status of the student. We will take a precautionary approach, requesting the parent/carer to collect their child if concerns remain. A trained staff member may take the temperature of the student, where appropriate, to support decision-making. Gloves will be worn for the purpose of taking a temperature.
- Parent/carers of students experiencing compatible symptoms with coronavirus (COVID-19) will be encouraged to seek the advice of their healthcare professional who can advise on next steps. Students should not return until symptoms resolve.

#### *Managing a suspected or confirmed case of COVID-19*

The Department has comprehensive procedures in place with the Department of Health and Human Services to manage suspected or confirmed cases of coronavirus (COVID-19) in schools. In accordance with these procedures we will contact the Department of Health and Human Services on 1300 651 160 to seek advice if a student or staff member:

- is a confirmed case,
- has been in close contact with a confirmed case.

We will inform the Department's Incident Support and Operations Centre who will support the school to make an [IRIS incident alert](#).

DHHS defines 'close contact' as someone who has either:

- had at least 15 minutes of face-to-face contact with a confirmed case of coronavirus (COVID-19)
- shared a closed space for more than two hours with someone who is a confirmed case.

#### *Face coverings*

- All school staff on site will wear face coverings unless exempt due to a medical condition or disability but may remove their face covering when teaching students.
- As we are a primary school, students are not required to wear face coverings regardless of whether they are aged 12 or over, however, may choose to do so.
- Parents are also required to wear face coverings whenever they leave the house, including for a school drop off and pick up. When travelling in a car alone, or only with members of their household, they do not need to wear a mask.

#### *Physical distancing*

Wherever possible we will encourage and support physical distancing of students however the Department and Victorian Chief Health Officer has acknowledged that physical distancing in schools is practicably difficult to achieve and has not mandated this practice.

Parents are asked to observe physical distancing requirements (1.5metres) whenever dropping off or collecting students from school and must not congregate at the school gate.

### *School arrival and departure arrangements for Term 4*

To support physical distancing at our school we have arranged for the following:

- Students are to arrive at school between 8.30 a.m. and 9 a.m. for a 9 a.m. start. Please 'kiss and drop' from your car at the gate. Staff will be there to assist and greet your children. Prep parents may bring their child to the classroom but please leave the site as soon as possible.
- Prep, Year 1 and Year 2 students will be dismissed at 3.15 p.m. each day. Please do not come early and socialise with other parents. Please use the drive through 'kiss and collect' as much as possible.
- Years 3, 4, 5 and 6 will be dismissed at 3.30 p.m. each afternoon. Parents are encouraged to meet these students either at the drive-through for car collection or at a point away from the school.
- Students in Years 3 - 6 who have siblings in Years Prep – 2, will collect their brothers and sisters from the classroom at 3.30pm and take them to their parents.

### *Hand, food and drink hygiene*

- Hand sanitiser will be available at entry points to classrooms and students will be educated on the importance of this health and safety measure.
- All people on school grounds must undertake regular hand hygiene, particularly on arrival to school, before and after eating, after blowing their nose, coughing, sneezing, or using the toilet.
- Where shared equipment is necessary, students will be required to exercise strict hand hygiene before and after use.
- Students must not drink from the school water fountains and must bring their own water bottle for use and refilling at school.
- Students must not share their food.

### *Air ventilation*

- Wherever possible, we will increase fresh air into indoor spaces and maximise the use of outdoor learning areas and environments. This will include setting air conditioning units to use external air rather than recycling and keeping doors open with door jambs to keep air circulating.

### *Temperature checks*

- All staff and students will be temperature checked each morning.

### *Mobile phones*

- The Department and school's mobile phone policies continue to be applied and we ask that students clean their phones regularly.

### *Health, Wellbeing and inclusions Workforces at school*

- Health and wellbeing staff (such as Student Support Services, Koorie Engagement Support Officers, Visiting Teachers and school nurses) will continue to provide support to students as required.
- Please contact the Assistant Principal for further information.

### *Record keeping for contact tracing*

- To support contact tracing, we are required to keep a record of the name, contact details, date and time of attendance of all staff, students and visitors who attend on-site for more than 15 minutes.
- We are also required to record the areas of the school the person attended.

### *COVID-19 Safety Management Plan*

- Our school follows and implements the Department's COVID-19 Safety Management Plan, available at: [COVID19 Safety Management Plan](#).

### *Attendance*

Normal attendance notification requirements apply for all students. Please refer to our school Attendance Policy for further information.

Exceptions to attendance may exist for medically vulnerable students. The Acting Deputy Chief Health Officer has advised that decisions regarding school attendance should be informed by the nature of a child or young person's condition, its severity and intensity of required treatment. In most cases, the presence of common conditions of

childhood, such as asthma, epilepsy, or Type 1 diabetes, should not preclude a student from attending face-to-face learning.

In keeping with expert public health advice, some students may be at higher risk for severe outcomes or complications of coronavirus (COVID-19), for example those with chronic medical conditions. Any student with a chronic medical condition should seek advice from their medical practitioner about attending school on site at different stages in the coronavirus (COVID-19) pandemic.

Please also contact the Assistant Principal for further support and advice on how we can support your child in these circumstances.

Our school records student attendance in accordance with the Department's [Attendance Policy](#).

#### ***School assemblies***

School assemblies will not take place face-to-face.

#### ***Camps and excursions***

Camps and excursions cannot take place. We will inform parents and students if this changes over the course of Term 4.

#### ***Sport and recreation***

Based on the Department and Chief Medical Officer advice and requirements as at 5 October 2020:

- Playground equipment can be used by students. However, students should practice hand hygiene before and after use.
- Playgrounds are available for community use and will be cleaned daily.
- Wherever possible students will participate in physical education or recreational play outdoors.

#### ***Visitors and school tours***

Under Department and Victorian Chief Health Officer advice and requirements visitors to school grounds must be limited to those delivering or supporting essential school services and operations (e.g. student health and wellbeing services, cleaning, and maintenance workers). This means:

- Parent volunteers must not attend school
- Parent-teacher information sessions and interviews will be conducted remotely online
- On-site school tours for prospective students and their families will not be conducted unless an exemption has been granted by the Principal to support essential educational planning and decision-making for students with disability or highly complex needs.

Visitors to school grounds must comply with physical distancing and face covering requirements and practise good hand hygiene.

#### ***School buses and transport***

Students should practice hand hygiene before and after catching any form of public transport.

Physical distancing should be practised by both parents and students at bus stops, interchange locations and train stations.

#### ***Outside school hours care***

Before and after school care will be available for students in accordance with their usual process. Further information is available from Camp Australia.

#### ***Interschool activities***

All interschool activities that involve on-site attendance by students from other schools, e.g. interschool sports will be cancelled.

### *Communication between parents/carers and our school*

Parents and carers are encouraged to contact the class teacher to discuss any concerns or areas of need in regards to their child's learning, health, wellbeing, or access to teaching and learning resources.

### *Cleaning and facilities management*

At our school we will:

- Continue extension of routine environmental cleaning, including progressive cleaning throughout the day to ensure that risks of transmission are reduced for high-touch services. See Department information about [Access to cleaning supplies and services](#).
- Carefully consider the necessity of using shared items or equipment e.g. shared computers.
- We will be practicing hand hygiene immediately before and after use of shared equipment.
